

HAMDARD UNIVERSITY

IN PURSUIT OF EXCELLENCE

"I would like to see the youth study at our campuses to develop quality of devotion, love, determination and service to mankind."

Shaheed Hakim Mohammed Said

Madam Sadia Rashid is not new to awards and prizes. During a life spent well, the President of Hamdard Foundation Pakistan and Chancellor of Hamdard University has received many prestigious awards, among them the Order of the Rising Sun, Gold Rays with Neck Ribbon, which was bestowed upon her by the Japanese Emperor in early 2019. Last year, the Government of Pakistan further recognized her outstanding contribution to education, and conferred upon her the Prestigious national award the Hilal-e-Imtiaz for her contributions to the field of education.

Rethinking Higher Education in Pakistan for a Changing World

Higher education in Pakistan is at a defining inflection point. Universities must move beyond traditional degree structures and respond decisively to the demands of a rapidly changing world shaped by technology, economic uncertainty, and environmental challenges.

The future of education lies in relevance, flexibility, and outcomes. Alongside conventional programs, universities must actively adopt new learning pathways - including micro-credentials, short courses, boot camps, and modular learning - to equip students with skills that match evolving industry and societal needs.

Hamdard University (HU) is aligned with this broader national and global shift toward future-ready education. We are committed to developing graduates who think critically, adapt confidently, and contribute meaningfully across disciplines and sectors.

Our focus remains clear: to produce individuals who are not only career-ready, but also socially responsible, innovative, and capable of shaping a more sustainable and progressive future - carrying forward Hamdard's enduring mission of knowledge, wisdom, and service to humanity.

Prof. Dr. Engr. Imran J Amin
Vice Chancellor,
Hamdard University

Our Vision

To preserve and disseminate knowledge by achieving the highest level of excellence at par with the best institutions of the world.

Our Mission

- To provide a superior liberal education. To be catalyst to the intellectual growth of the students.
- To inculcate high ethical standards in students. To prepare students to be members of the learned professions.
- To advance frontiers of knowledge and to contribute boldly to the international community of scholarship.
- To help alleviate suffering through both sympathy and action. To provide a wide range of opportunities on and beyond the campus.

ACADEMIC HUBS

Main Campus, Madinat al-Hikmah

B.Ed. 2.5 Years & 1.5 Years (Evening / Weekend), M.Phil. Education, English Literature, English Linguistics, Islamic Studies, Ph.D. Education, English Linguistics, Islamic Studies. CERTIFICATION: Education, Teachers Education, Early Childhood Education, Educational Planning and Management, DIPLOMA: Education

Faculty of Eastern Medicine:
Bachelor of Eastern Medicine System (BEMS), Bachelor of Science (BS) Human Nutrition and Dietetics M.Phil: Eastern Medicine, Ph.D Eastern Medicine.

Faculty of Health & Medical Sciences:
Bachelor of Medicine & Surgery (MBBS), Bachelor of Dental Surgery (BDS), BS MT (LT), BSN, DPT, POST RN, BS HPESS: Health, Physical Education & Sports Sciences.

Faculty of Pharmacy:
Pharm D, M.Phil. Pharmaceutics, Pharmacology, Pharmacognosy, Pharmaceutical Chemistry, M.Phil and Ph.D. Pharmacy Practice, Ph.D: Pharmaceutics, Pharmacology, Pharmacognosy, Pharmaceutical Chemistry.

Faculty of Social Sciences & Humanities:
ADP: Education psychology, psychology, English, Islamic Studies & Education, BS: Educational Psychology, Psychology, English, Islamic Studies, Criminology, B.Ed. (Hons) 4 Years.

SIGNIFICANT CHARACTERISTICS OF THE UNIVERSITY

The Hamdard University (HU) – the brightest jewel in crown of the city of education and learning called ‘Madinat al-Hikmah’ – is situated far away from the hustle and bustle of our country's largest city. But with out any shadow of doubt it's a place full of joy and happiness due to the glowing liveliness of young women and men, who are perennially engaged in studies and curricular and co-curricular activities besides social and cultural events.

Since its inception in 1991, the University has moved upwards step by step and is now recognized as one of the most reputable seats of learning in the country. The university boasts a number of features that set it apart from other institutions.

For one, it's among the first few institutions that were set up in the private sector. But at the same time it's a not for profit organization; therefore, it lays far more emphasis on imparting quality education and training than on making a profit.

The proof of this fact is the millions of rupees that the university spends on organizing a large number of sports, curricular and co-curricular activities and social and cultural events every year. The aim of these activities is to produce well-rounded graduates, not nerds or zombies. To boot, unlike many other universities it's a truly multidisciplinary seat of higher education: it boasts as many as seven faculties in addition to several institutes, as opposed to some of its competitors who hardly have two or three disciplines.

A most significant achievement of the University is its liaison and collaboration with international community of higher education, recently four professors from University of Essex visited the Hamdard University main campus and delivered the lectures in different faculties.

Significant characteristics:

- Madinat al-Hikmah: a purposely developed city of Learning and Education where the main campus of the university exists in an open and peaceful natural environment in beautifully build buildings to cater thousands of students.
- Seven faculties of the University: fountains of knowledge and information.
- Faculty of Eastern Medicine, the first ever higher education institution in the field of traditional and oriental method of treatment.
- The biggest library of a private university with a rich collection of manuscripts, rare classical literature and the latest books according to teaching requirements.
- Three teaching Hospitals.
- Open fields and Gymnasium for outdoor and indoor sports and games.
- Green area of gardens and fields.
